  - 1.1. Our general terms and conditions shall apply exclusively. Contrary or differing customer's general terms and conditions shall not apply except if we expressly agree upon in writing. Even if we refer to a letter, which contains general terms and conditions of the customer or a third party or other such reference, no agreement to the validity of those general terms and conditions is implied.
  - 1.2. Our general terms and conditions shall also apply if we perform delivery without reservations and despite our knowledge of differing or contrary terms.
  - 1.3. All provisions between us and the customer in order to fulfil this contract are to be agreed in writing.
  - 1.4. Our general term and conditions shall also govern all future transactions with the customer.
2. Offer – Documents
  - 2.1. Our offers and quotes are without obligations, except as otherwise stated in the order acceptance.
  - 2.2. We reserve property and copyrights for all illustrations, technical documents, calculations and other documents. Any transfer on to third parties requires our written consent.
3. Prices – Terms of payment
  - 3.1. Except as otherwise stated in the order acceptance prices are „ex works“, exclusive of packing charge, export shipments, customs and other public taxes. Such expenses are billed for separately.
  - 3.2. The statutory VAT is not included in our prices; it is reported separately in legal amount in the invoice on the day of the issuance.
  - 3.3. Deduction of any discount requires an agreement in writing.
  - 3.4. Except as otherwise stated in the order acceptance the purchase price is due and payable net (without deduction) within 30 days from the date of the invoice. A delay of payment is handled according statutory regulations.
  - 3.5. Only a legally binding, undisputed and acknowledged judgment on a customer's counterclaim entitles the customer to offset the invoice. Beyond, any practice of retention must be based on the same contractual relationship as its counter-claim.
  - 3.6. We are entitled to deliver or to render outstanding deliveries or services only against cash in advance or surety, if circumstances are confessed after conclusion of the contract, which are suitable to decrease the credit rating of the customer fundamentally and through which the payment of the outstanding money is endangered (including other individual orders for which the same business terms apply). Overdue invoices are reminded and charged with a default interest of 1% p. m. (12 % p. a.). Bank expenses and other charges are at the expense of the customer. Complaints about the delivery items do not release the customer from the duty to the payment on time. For amounts over CHF 100'000 generally an instalment payment or a deposit at a factory acceptance test is applied.
4. Delivery time
  - 4.1. The dates and delivery time stated by us for deliveries and services are always best estimates, unless a firm delivery period is expressly agreed beyond the order confirmation. In case of shipping, delivery periods and dates refer to the time of handing over the goods to the forwarding agent, carrier or to any third party engaged with the transport.
  - 4.2. The beginning of the delivery period is based on an agreement of all technical specifications beforehand. We are entitled to withdraw from the contract by giving the customer immediate written notice, if the implementation of any further changes in the specifications or any new requests submitted by the customer will be disproportionate or unreasonable to us.
  - 4.3. Compliance with our delivery obligation requires timely and proper performance of all duties of the customer. Defences based on non-performance of the contract are reserved.
  - 4.4. Without prejudice to our rights of default we can demand from the customer a prolongation of delivering and performance periods or a moving of delivering and performance appointments around this time period in which the customer does not meet his contractual liabilities opposite us
  - 4.5. In case of default in acceptance or other breach of duties to cooperate by the customer we are entitled to claim any resulting damage including but not limited to additional expenses, if any. Further claims are reserved.
  - 4.6. Provided that the conditions of the previous paragraph are fulfilled, the accidental risk of loss or damage to the goods passes on to the customer at the time when the customer claimed default of acceptance or debtor's delay.
  - 4.7. The liability for impossibility of the delivery or for delays in shipment does not exist, if these incidents are caused by acts of god or other, at the time of the conclusion of a contract not foreseeable events (e.g. breakdowns of any kind, difficulties in sourcing raw materials or energy, delays in transit, strikes, lawful lockouts, lack of workers, or the incorrect or not timely deliveries by our suppliers), which we are not responsible for. Provided that such events fundamentally aggravate the delivery or performance and the difficulties are not only of temporary duration, we are entitled to withdraw from the contract. In case of difficulties of temporary duration the delivery or performance periods prolong themselves beyond the time period of the hindrance plus an adequate adaption period. As far as the acceptance of the delivery or service cannot be expected from the customer because of the delay, he may withdraw from the contract by an immediate written explanation.
5. Transfer of risk
  - 5.1. Except as otherwise stated in the order acceptance the delivery is agreed "ex works". The accidental risk of loss or damage to the goods passes on to the customer also by freight paid delivery, if the shipment is dispatched. Beyond, the risks transfers to the customer also in cases, when dispatching or delaying of the delivery is requested by the customer and to be more precise for the full time of the delay. When the dispatch or the handing over is delayed because of circumstances caused by the customer, the accidental risk of loss or damage to the goods passes on to the customer from the day the delivery item is ready for shipment and we have reported this to the customer.
  - 5.2. The dispatch and transport is carried out on the risk of the customer even on delivery free domicile. Without a special agreement we arrange a transport insurance. In case of any kind of transport damage we shall be informed within 10 days in order to allow for inspections. In case of international transport INCOTERMS 2010 are applicable.
6. Inspection and warranty
  - 6.1. In the case of inspection or tests at our works or on site when necessary or called for on your order we will give you seven working days notice in writing that these tests are ready to be carried out.
  - 6.2. Any inspection or test requested by you may be charged for in addition to the quoted price unless the cost is already included in our quotation.
  - 6.3. In case of non-conformity of the goods we are entitled at our option and within an appropriate period of time to replace or repair the defect for the delivery of conforming goods. If the remedy of defects will be impossible or unreasonably aggravated by the fact that the customer carries out changes without our consent at the purchase item or make them by the third party, so the customer has to bear the additional costs resulting from the alteration of the removal of defects.
